Defense Acquisition University Online Virtual Tour

Welcome to the DAU Online Resources Tour

Tour Orientation

Welcome to the DAU Online Virtual Tour. The online assets featured in this tour offer a vast array of acquisition resources to the AT&L workforce.

To access a brief orientation that demonstrates how to navigate through the Virtual Tour, click the Tour Orientation link at the top of this page.

Please click each asset icon, located at the bottom of your screen to learn how it will benefit you.

OUSD March 29, 2006 Memo

OFFICE OF THE UNDER SECRETARY OF DEFENSE
3000 DEFENSE PENTAGON
WASHINGTON, DC 20301-3000

MAR 29 2006

ACQUISITION, TECHNOLOGY AND LOGISTICS

MEMORANDUM FOR SECRETARIES OF THE MILITARY DEPARTMENTS
(ATTN: ACQUISITION EXECUTIVES)
DIRECTORS OF THE DEFENSE AGENCIES

SUBJECT: Award Fee Contracts (FAR 16, DFARS 215, DFARS 216)

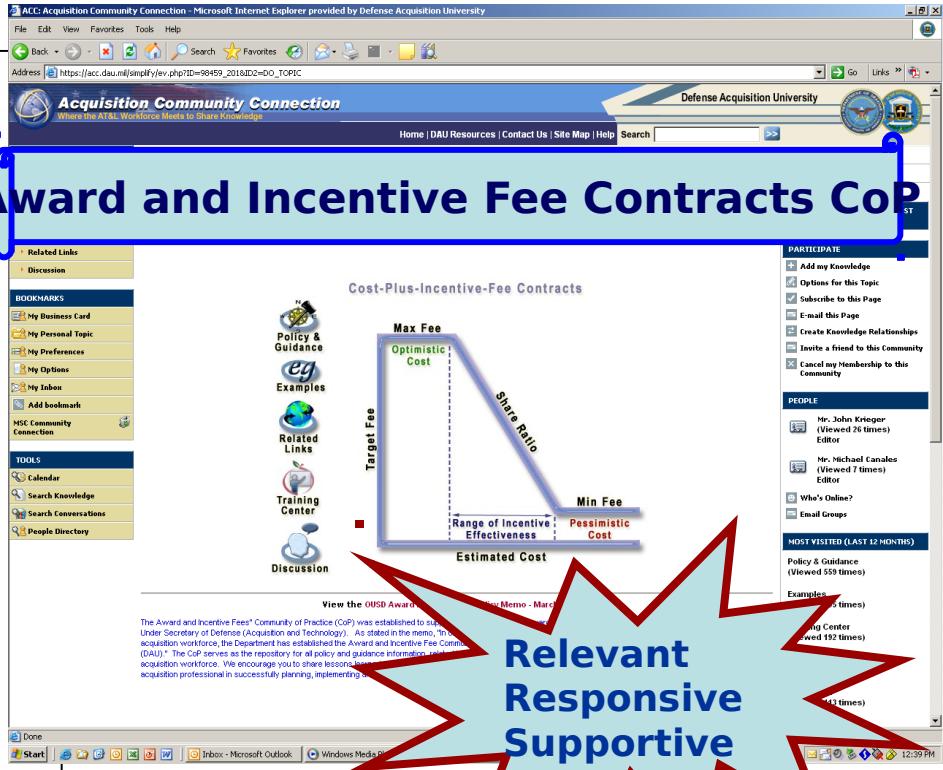
Award fee contracts must be structured in ways that will focus the government's and contractor's efforts on meeting or exceeding cost, schedule, and performance requirements. The ability to earn award fees needs to be directly linked to achieving desired program outcomes. In December 2005, the Government Accountability Office (GAO) issued a report, entitled "DEFENSE ACQUISITIONS: DoD Has Paid Billions in Award and Incentive Fees Regardless of Acquisition Outcomes" http://www.gao.gov/new.items/d0666.pdf, which made a number of recommendations on how to improve the use of award fees.

In the DoD response dated December 12, 2005, the Department generally concurred with the recommendations in the report and agreed to issue a policy memo by March 31, 2006, to (1) address desired outcomes and the role the award fee should play in the overall acquisition strategy; (2) remind the acquisition workforce to follow existing policies; (3) provide guidance to the acquisition workforce on "rollover"; and (4) develop a communication plan to share proven incentive strategies across the entire DoD acquisition workforce. These actions correspond to Recommendations 1, 2, 4 and 7, respectively, in the GAO report. Separately the Department will respond to Recommendations 3, 5 and 6 of the report at a later time. While award fee contracts are intended to be flexible, this memorandum provides additional guidance on the proper use of award fees.

Link Award Fees to Desired Outcomes (GAO Recommendation 1)

While award fee contracts are used when it is neither feasible nor effective to devise predetermined objective performance targets, it is imperative that award fees be tied to identifiable interim outcomes, discrete events or milestones, as much as possible. Examples of such interim milestones include timely completion of preliminary design review, critical design review, and successful system demonstration. In situations where there may be no identifiable milestone for a year or more, consideration should be given to apportioning some of the award fee pool for a predetermined interim period of time

Award and Incentive Fee Contracts CoP



arrangements, and other supporting resources related to this policy memorandum. The CoP is available on the DAU Acquisition Community Connection at https://acc.dau.mil/awardandincentivefees.

This policy memorandum is effective immediately. The DFARS and/or its PGI supplement will be revised to reflect the policy contents of this memorandum. Please direct any questions to Michael Canales at 703-695-8571 or e-mail Michael.Canales@osd.mil.

James I. Finley
Deputy Under Secretary of Defense

This COR Community of Practice (CoP) supports you and other COR community members by providing a central clearinghouse of knowledge and learning assets as well as foster the sharing of best practices and lessons learned within the COR Forum Area. Additionally, the CoP serves as a collaborative resource tool to aid learners with the new online COR course. Your participation is appreciated and necessary to increase the information knowledge base within the COR CoP.

A variety of tools exist to help you with completing your contracting tasks more effectively. Look for them on this page. You can help our list to grow by submitting your own favorite tool!

AT&L Knowledge Sharing System Tools - lists tools by career field/process area

DAU Pricing Support Tool - provides technical assistance, policy guidance and refresher information primarily focused on assisting the contracting community in conducting cost or price analysis. This tool also describes analytical tools and techniques used in deriving fair and reasonable pricing.

PBA Toolkit - provides a simple step process that allows you to develop and practice your understanding of effectively completing the tasks associated with PBA. You can use this Toolkit at any time to create your PBA requirements documents. (Note: registration with GSA FSS Center for Acquisition Excellence Virtual Campus is required to access the PBA Toolkit).

Pricing Support Tool

The objective of the Pricing Support Tool is to provide technical assistance, policy guidance and refresher information primarily focused on assisting the contracting community in conducting cost or price analysis. This tool also describes analytical tools and techniques used in deriving fair and reasonable pricing. The target audience is contracting professionals who have completed DAU's basic and intermediate pricing courses.

The Pricing Support Tool includes decision tree technology for three types of pricing:

- Commercial
- Modified Commercial
- Non-Commercial

The Pricing Support Tool also includes descriptive text and special considerations about the Commercial Pricing model, the Modified Commercial Pricing model, and the Non-Commercial Pricing model.

The Pricing Support Tool is not intended as a standalone distance learning course, but as a readily accessible reference tool used to provide assistance and training for guiding users

Continuous Learning Center

clc.dau.mil

Welcome to the DAU Continuous Learning Center

The DAU Continuous Learning Center is a Department of Defense resource dedicated to the delivery of continuous learning opportunities supporting the Acquisition, Technology and Logistics (AT&L) workforce.

General Information

To contribute in fulfilling the DoD AT&L requirement for obtaining 80 continuous learning points every two years, DAU Continuous Learning Center offers a wide variety of continuous learning modules, varying from one to 12 hours in length, primarily in the following areas:

- Business
- Contracts
- Engineering and Technology
- Logistics
- Acquisition Management
- Program Management

Register or Browse Continuous Learning Modules

Browse	Register
To browse Continuous Learning Modules select https://learn.dau.mil/html/clc/Clc.jsp and follow instructions for accessing the module.	To register for a Continuous Learning Module, select your organization at https://learn.dau.mil/html/clc/Register.jsp and follow registration instructions.

Note: In order to receive continuous learning points (CLPs) for completing a module, you must register through the appropriate registration system. You will have access to the module as soon as you complete the registration process.
